Aceh, Indonesia

Results-driven Fullstack Developer with 1+ years of hands-on experience building scalable web applications using TypeScript, Next.js, and modern JavaScript frameworks. Proven expertise in React.js, Node.js (Express), and Laravel, with a strong focus on performance optimization, responsive design, and seamless UX/UI implementation. Passionate about AI-driven development (GenAI & Multimodal) and staying ahead of industry trends through continuous learning. Adept at collaborating in cross-functional teams, solving complex problems, and delivering high-impact solutions that align with business goals.

Work Experiences

PT. Suiten Inovasi Sukses - Jakarta

Oct 2024 - May 2025

IT Developer

- Developed 3+ high-performance web applications using Next.js, collaborating with backend teams to deliver robust solutions, resulting in a 30-40% improvement in user satisfaction.
- Designed fully responsive UIs with Next.js and Tailwind CSS, optimizing user experience across devices
- Implemented frontend performance optimization techniques, including data prefetching and code splitting, reducing load times by 60%, from 5s to 2s.
- Actively participated in cross-functional meetings with IT, PM, and UI/UX teams, contributing to the successful launch of 10+ new features.

Homeschooling Kak Seto - Depok

Jan 2024 - Jun 2024

Web Developer

- Built 10+ responsive pages using Next.js and Tailwind CSS, improving mobile user experience.
- Transformed UI/UX designs into functional components, enhancing visual appeal and user interaction.
- Developed high-performance applications with Next.js, increasing application speed and ensuring maintainability.
- Styled web apps with Tailwind CSS, delivering modern, responsive designs for better cross-device engagement.
- Conducted testing with Cypress.io, reducing bugs and ensuring a smooth user experience.
- Utilized Google Firebase for cloud hosting and backend services, improving app scalability and real-time data processing.

PT. Pilihanmu Indonesia Jaya - Depok

Dec 2023 - Jun 2024

Associate Web Developer

- Developed a high-performance web application using Next.js, ensuring robust functionality and intuitive UI
- Converted UI/UX designs into fully functional components with Next.js and Tailwind CSS.
- Designed and built a cognitive test application using CodeIgniter 4, delivering a seamless and reliable user experience .
- Engineered test components and conducted end-to-end (E2E) testing with Cypress.io, improved application stability and performance.

PT. Pilihanmu Indonesia Jaya - Depok

Aug 2023 - Dec 2023

Frontend Developer Intern

- Built and integrated web apps using Next.js and RESTful APIs, enhancing interactivity and performance by 30%.
- Converting figma Designs from UI/UX team into functional code.
- Created clear and detailed API documentation using Redocly, enabling parallel development by both frontend and backend teams
- Contributed to sprint meetings with IT, PM, and UI/UX teams, ensuring timely delivery of 5+ major features.

Education Level

Universitas Malikussaleh - Lhokseumawe, Indonesia

Sep 2020 - Dec 2024

Bachelor of Informatics Engineering, 3.68/4.00

- Frontend Developer Intern in the Kampus Merdeka MSIB Batch 5 Internship Program, where I contributed to the development of responsive and dynamic web applications, collaborating closely with cross-functional teams to deliver high-quality user interfaces.
- Frontend Engineering participant in the Kampus Merdeka MSIB Batch 3 Study Independent Program at PT. Ruang Raya Indonesia (Ruangguru), applying industry-standard technologies and best practices to build scalable, user-friendly front-end components for educational platforms.

Ruangguru - Jakarta, Indonesia

Aug 2022 - Dec 2022

Certificate in Frontend Engineer, 3.85/4.00

- Gained strong programming fundamentals and applied them with JavaScript.
- Developed a Pokémon project using ReactJS, showcasing dynamic data handling from a public API.
- Built a gallery project with ReactJS, implementing CRUD operations and API integration for efficient data management.
- Styled the frontend with TailwindCSS and ChakraUI, creating responsive, user-friendly designs.
- Enhanced skills in consuming and managing APIs, improving dynamic frontend development and data handling.

Senior High School, Computer and Network Engineering

- Attended MTU training focused on networking, with in-depth coverage of Cisco technologies, equipping me with a solid foundation in network infrastructure, configuration, and troubleshooting.

Skills, Achievements & Other Experience

- **Webinars Attended** 🕒 (2023): Google Developer Group (Devfest)
- **Modules Taken** 🕒 (2022): Ruangguru Frontend Web Development with React
- **Modules Taken** 🕒 (2022): Ruangguru Software Engineering
- **Modules Taken** 🕒 (2022): Ruangguru Intro to Node.js
- **Modules Taken** 🕒 (2022): Ruangguru Programing with Javascript
- **Modules Taken** 🕒 (2020): Progate, Python Basic
- **Tech Stack:** NextJS, React, ExpressJS, NodeJS, Typescript, Javascript, TailwindCSS, Web Design, PHP, Figma, Git, Laravel, MySQL, MongoDB
